

Course Description

This online graduate course was created to provide aspiring adapted physical educators an opportunity to prepare for the Adapted Physical Education National Standards (APENS) examination leading to receiving the National Certified Adapted Physical Educator (CAPE) advanced certification.

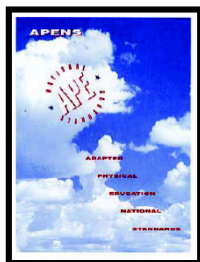

Students will:

- **explore** the APE online community
- **chat** with APE professionals from around the nation
- **discuss** case studies pertaining to APE competencies and proficiencies (i.e., knowledge, skills, duties, and responsibilities)
- **review** downloadable materials covering APENS content
- **prepare** for the APENS examination with quiz questions based on previously used exams

Students planning to enroll in this course should purchase (and begin to review) the **Adapted Physical Education National Standards** manual before class begins.

To get the special PEP 558 manual price of only \$15, send an email to:

Tim Davis, Ph.D. CAPE
APENS Chairman
apens@cortland.edu

The *goal* of PEP 558 is to become a **CAPE!**

Once students have successfully completed PEP 558 they will be prepared to take the APENS national certification exam.

Successful completion of the APENS exam will earn the CAPE advanced certificate for a period of 7 years.

The APENS exam will be offered after the completion of the course.

Arrangements can be made for PEP 558 students to take the APENS exam at a nearby regional location.
